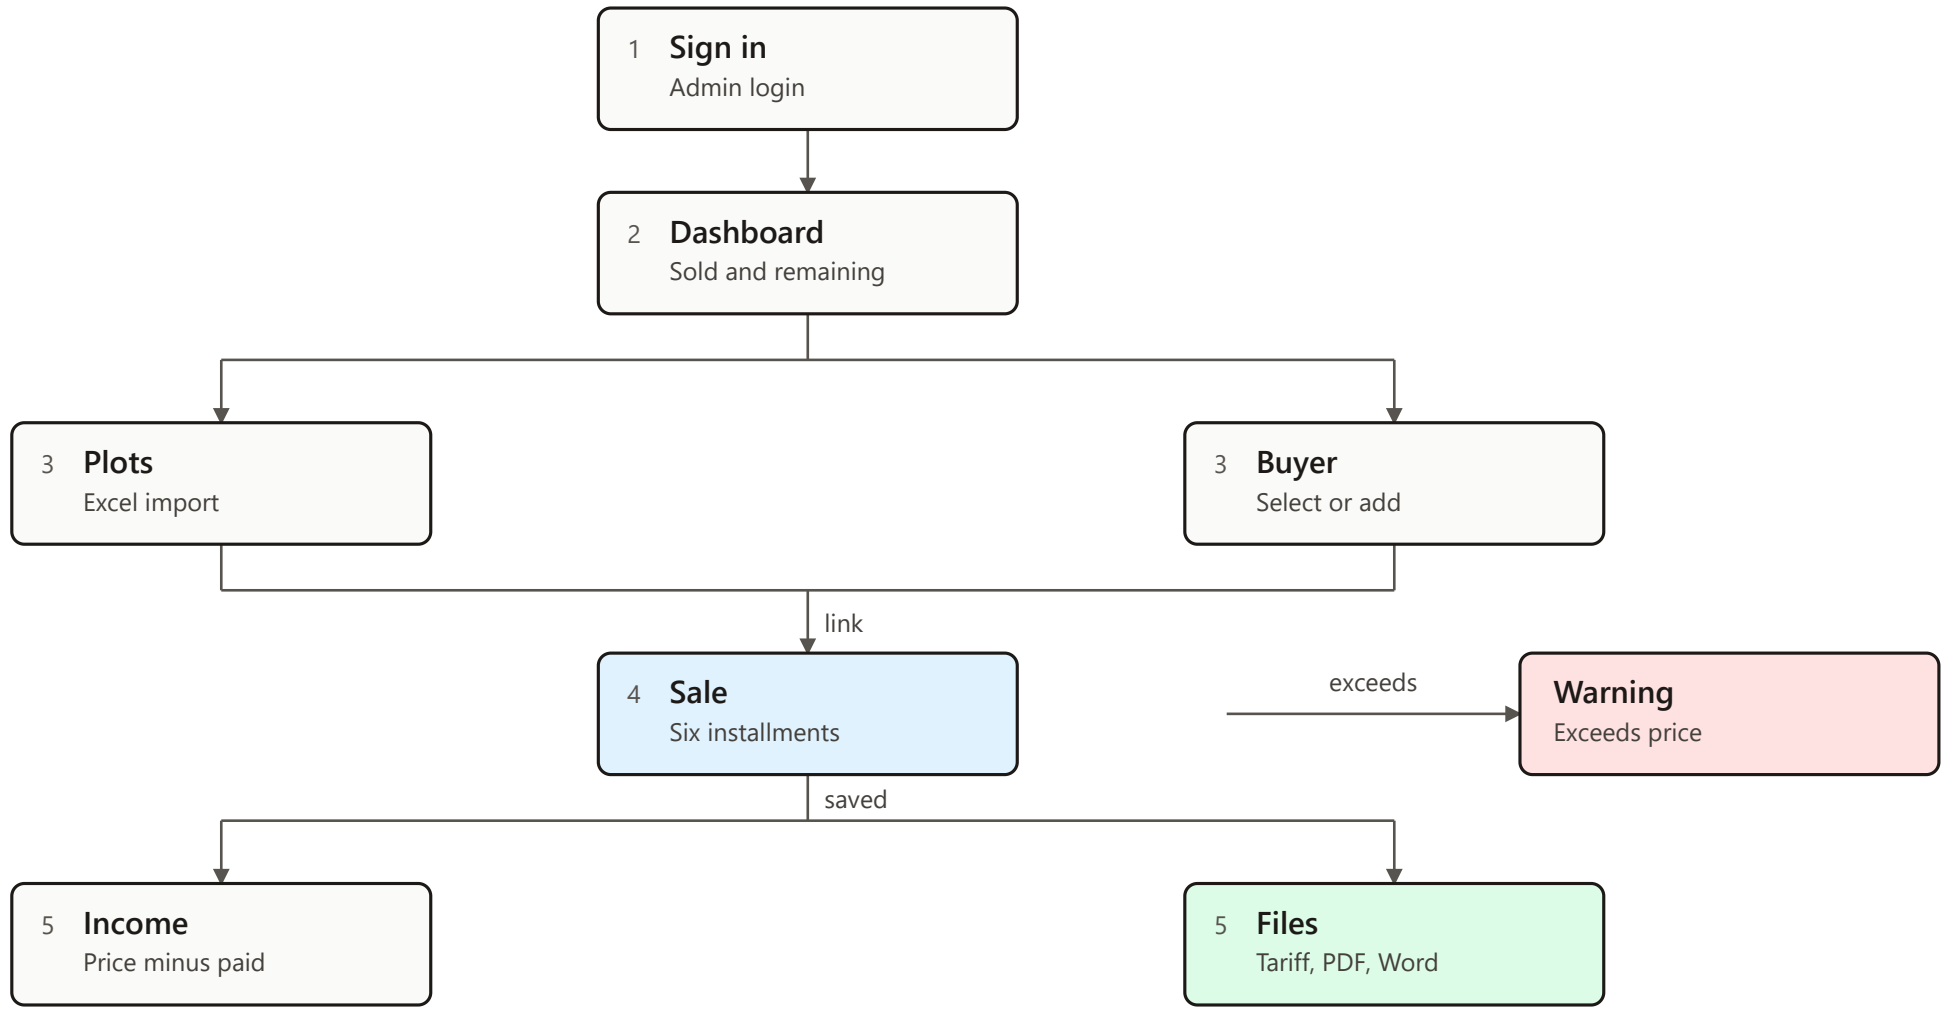
Sale path

Fasal Babaji Mina · sign in through issued files



A plot linked to a buyer is sold. A plot with no buyer stays on the remaining list. The paid amount is the sum of up to six installments, and income shows price minus that amount. If the paid amount is higher than the price, the sale form shows a warning instead of a balance. Saved sales can download the municipal tariff PDF, the deed PDF, and the deed Word file. Expenses, markets, employees, users, backups, settings, and the activity log sit beside this path. Profile editing is limited to the first user account.
